

"THE ONLY CHAUNCEY."

MR. DEPEW TALKS ABOUT THE WORLD'S FAIR.

The Popular New York Orator Given an Enthusiastic Reception at the Chicago Auditorium.

CHICAGO, June 6.—Chauncey M. Depew's speech at the Auditorium, under the auspices of the Chicago Press Club was the event of the week. The subject of the speech was "The World's Fair," and he made ample justice to it.

When the prolonged applause with which the distinguished guest of the Press Club was greeted had ceased that gentleman advanced a step or two toward the footlights, as if to be in closer communion with his auditors, and began his "talk" with no further preliminaries than to explain that he was ill and had only come to the city on the day before yesterday.

Speaking of the benefits to be derived from the fair Mr. Depew said:

"Above and beyond the material results of this exhibition will be its stimulating influences upon the patriotism of the people and the unity of the nation."

His oration was a masterpiece of eloquence and logic, and was received with the warmest approval of the audience. It was a rare opportunity to hear the great orator in person, and the speech was a most successful one.

CHAUNCEY M. DEPEW.

This one of the paradoxes of progress, that diffuse and universal intelligence tends to provincialism and local pride, and the refinement of the intellect to angles and points. There was a time when the Weekly Tribune reached every town in the West, and Horace Greeley's opinions were the bond of common sentiment and national union, but the press associations distribute with impartial hands the news of the world to the newspapers of every city in the land.

The result is that the journals of every town go to the public only as far as the train can carry them during the morning hour, or before the family clock strikes the note for retiring.

Universal circulation all over the country is no longer possible to any newspaper, and the editorials of the local press mold the opinions of their people. Under these conditions the New York editor does not write for Chicago nor the Chicago editor for St. Louis.

If the Eastern or Western, or the Southern or Pacific coast press treat all the interests of other sections it is too often in an unfriendly and critical spirit. It is in a tone which denigrates or assails their distant countrymen, and makes them not only rivals, but enemies.

From this cause multitudes in the East believe the West is wholly to the pursuit of money, and deficient in the culture and refinement of long organized and intelligent communities.

Multitudes in the West regard the people of the East as effete and weak-exercising upon the body politic, or leeches in the form of bug bugs and coupon cutters.

The press of the South indicates a sectional pride and sensitiveness which suspect an enemy in the mildest critic and hostility in every other section. But the fierce light of universal publicity which will beat upon this exhibition will do much to demonstrate that we are one people, with common interests and a common destiny.

With the broad, generous and catholic spirit which will inspire visitors to this exhibition, the West will discover that the East, with its conservatism, intellectuality and prosperity, has not lost its vigor, and the East will find that the West, with its stalwart force and push and drive, is abreast with the East in intelligence, culture, and refinement.

While the East and the West will meet the South here with fraternal greetings and reciprocal respect the representatives from every State will learn anew the lesson that peace, prosperity, and power can be strengthened and perpetuated only in the federal union.

Let this international fair be held; let the four hundredth anniversary of the discovery of America by Columbus be celebrated; let it be commemorated by an industrial exhibition grander in extent and volume than any ever seen before; let the old world know what their children have done in the new; let the stars and stripes float from every roof and turret and flagstaff; let the bands announce the opening and closing of the fair each day with the inspiring strains of our national anthem, and we will separate from this grand communion impressed more deeply than ever before with the fact that the proudest title on earth is that of an American citizen."

THE EIGHT-HOUR FIGHT.

Figures Showing the Strength of the Movement.

New York, June 6.—Secretary P. J. McGuire of the United Brotherhood of Carpenters and Joiners in speaking of the subject of the eight-hour work day said that in 141 cities in which strikes had occurred the men were successful. The number of men involved was 54,225. So popular has the movement become that it has resulted in the formation of forty-six new lodges, aggregating 11,241 members. Men are out still for eight hours in nine cities. At Portland, Ore., and Wheeling, W. Va., the men are locked out. In six cities a compromise was effected on a nine-hour basis. The locked-out cloakmakers have issued a circular appeal for aid, in which they say: "The cloakmakers have been earning only \$9 or \$7 weekly for eighty-four hours, and in some cases 100 hours' work." The imposition of a bond aimed at the destruction of the union and denying to the workmen the benefits of organization is worse than Russian despotism."

IN THE BASE BALL WORLD.

Was it Ella CordeLL?

The Body of the Missing Girl Thought to Have Been Found.

KROOK, Ia., June 6.—Developments indicate that the body of the young woman found in the river near Canton, Mo., a few days ago is that of Ella CordeLL, who left her home at Industry, Ill., May 27 to go to the home of her sister at Bowen, Ill. The theory of the police here is that the girl was murdered and the body thrown in the river. Suspicion attaches to a stranger who hired a rig from a livery stable here in the afternoon of May 28.

ELOPED WITH A PATIENT.

A Missouri Physician Flees With a Merchant's Daughter.

LYNN CREEK, Mo., June 6.—A sensation was created here last night by the elopement of Dr. J. W. Morrell, a prominent young physician, with May Moulton, one of his patients and the daughter of one of the leading merchants of this place. Morrell leaves a wife and child. The Sheriff has secured a warrant for the arrest of the elopers and has started in pursuit.

Steam Heat for Passenger Cars.

NEW YORK, June 6.—In its issue of this week the Engineering News publishes statistics of the progress made in heating passenger cars by steam from the locomotive, showing that 7,391 cars, or about one-fourth of the entire passenger rolling stock, given up the locomotive baggage and sleeping cars, are now equipped for steam heat.

Rosina Rossiter Acquitted.

NEW YORK, June 6.—Rosina Rossiter, the young married woman who some time ago stabbed Giroud Chindler through the heart with an old, rusty bayonet, was honorably discharged in court today. Mrs. Rossiter showed conclusively that at the time of the stabbing she was protecting her honor.

Drove Out the Liquor Seller.

AMHERST, Kan., June 6.—The original package house established here week ago by a Kansas City brewing company, has been discontinued after a tempestuous career. The stock was shipped back to headquarters and legal proceedings against the manager will probably be dropped.

St. Louis Iron Works Shut Down.

ST. LOUIS, Mo., June 6.—The iron industry of Missouri seems to be on the wane. A few days ago furnace No. 1 of the Vulcan Steel works shut down and now furnace No. 3 has inaugurated the process known in the trade as "blowing out." The plant owner will follow suit in a few days.

Rampaging Redskins.

MILWAUKEE, Wis., June 6.—A special from Shawano, Wis., says 1,500 Indians, armed with Winchester rifles on the Menominee reservation have driven the Indian agent off. Trouble is feared.

The Preventive of a Terrible Disease.

No disorder, excepting the most deadly forms of lung disease, involves each a common element, the destruction of the lungs as those which fasten upon the kidneys. Such maladies, when they become chronic—and none are so liable to assume that character—completely wreck the system. To prevent this terrible calamity, should be had, upon the first manifestation of trouble, to Hostetter's Stomach Bitter, which experience has proved to be highly effective as a means of imparting tone and regularity to the organs of digestion, as well as to the liver, stomach and bowels. Another beneficial result of this medicine, naturally a consequence of its direct action, is the cleansing of the blood from the impurities which beget rheumatism, neuralgia, gout, dropsy and other maladies. By increasing the activity of the kidneys, it augments the purgative efficiency of these organs, which are most important outlets for the escape of such impurities.

PAIN FROM INDIGESTION, dyspepsia, and hearty eating, is relieved at once by taking one of Carter's Little Liver Pills immediately after dinner. Don't forget this.

Notice.

Notice is hereby given, that a pardon will be asked for Frank O. Dickerson who was sentenced May 26th, 1870, to imprisonment for life, in the state prison for complicity in the death of George Mack whose death occurred July 14th, 1878, at the town of Turtle, in the county of Rock and state of Wisconsin. That said pardon proceedings will be heard on Wednesday, the 11th day of June, 1880; or as soon thereafter as the governor may appoint, at the city of Madison, Wisconsin.

Dated this 17th day of May, 1880, at Janesville, Rock County, Wisconsin ANGELO J. KING, Attorney.

A \$50,000 outfit will be furnished on 30 days' time to the first responsible agent that applies for it, with a guarantee of \$100,000 profit in four weeks or no pay. Exclusive control of your county given. Something new and with great possibilities. We prove our responsibility. Address at once, with stamp, A. B. JAMES & Co., Racine, Wis.

THE HOUSE WILL END THE DEBATE SATURDAY.

Mr. Conger of Iowa Introduces the Republican Caucus Bill—The Discussion in the Senate.

WASHINGTON, June 6.—The House gave up the day to discussion of the silver bill.

Mr. McKinley reported a resolution providing that the House should proceed with the consideration of the silver bill until Saturday at 3 p. m., when the previous question should be considered as ordered. After a lively debate the resolution was adopted by a vote of 120 yeas to 117 nays.

The bill having been read Mr. Conger of Iowa offered the caucus bill as a substitute.

Mr. McConas of Maryland moved to amend the substitute by adding to Sec. 6 the words "and the purchase of silver bullion shall be suspended while it is being so deposited for coinage."

Mr. Taylor of Illinois offered an amendment to the original bill providing that if the net amount of silver bullion received shall be less than \$2,000,000 any one month the Secretary of the Treasury shall in the succeeding month purchase a sufficient amount to supply the deficiency.

Mr. O'Donnell of Michigan moved to amend the amendment by striking out \$2,000,000 and inserting \$1,000,000.

This exhausted all the amendments which can be offered under the rules, and although Mr. Bland was on his feet demanding recognition he was ignored by the speaker.

Mr. Conger of Iowa, said that the time had come when something should be done that should be wise, conservative, and judicious, and at the same time liberal, comprehensive, and courageous. No measure could be satisfactory to all men or all parts of the country. The bill before the House was not entirely satisfactory to himself, but it was the bill which the majority believed would greatly improve the present status and make a long stride in the direction the Government ought to go.

Mr. Williams of Illinois, spoke in favor of the free coinage of silver. He was opposed to experimenting in regard to silver. Let Congress determine here and now whether the country should continue to use silver as money and not, and if the question was decided in the affirmative let the government coin silver according to the Constitution.

TALKING ABOUT SILVER.

THE HOUSE WILL END THE DEBATE SATURDAY.

Mr. Conger of Iowa Introduces the Republican Caucus Bill—The Discussion in the Senate.

WASHINGTON, June 6.—The House gave up the day to discussion of the silver bill.

Mr. McKinley reported a resolution providing that the House should proceed with the consideration of the silver bill until Saturday at 3 p. m., when the previous question should be considered as ordered. After a lively debate the resolution was adopted by a vote of 120 yeas to 117 nays.

The bill having been read Mr. Conger of Iowa offered the caucus bill as a substitute.

Mr. McConas of Maryland moved to amend the substitute by adding to Sec. 6 the words "and the purchase of silver bullion shall be suspended while it is being so deposited for coinage."

Mr. Taylor of Illinois offered an amendment to the original bill providing that if the net amount of silver bullion received shall be less than \$2,000,000 any one month the Secretary of the Treasury shall in the succeeding month purchase a sufficient amount to supply the deficiency.

Mr. O'Donnell of Michigan moved to amend the amendment by striking out \$2,000,000 and inserting \$1,000,000.

This exhausted all the amendments which can be offered under the rules, and although Mr. Bland was on his feet demanding recognition he was ignored by the speaker.

Mr. Conger of Iowa, said that the time had come when something should be done that should be wise, conservative, and judicious, and at the same time liberal, comprehensive, and courageous. No measure could be satisfactory to all men or all parts of the country. The bill before the House was not entirely satisfactory to himself, but it was the bill which the majority believed would greatly improve the present status and make a long stride in the direction the Government ought to go.

Mr. Williams of Illinois, spoke in favor of the free coinage of silver. He was opposed to experimenting in regard to silver. Let Congress determine here and now whether the country should continue to use silver as money and not, and if the question was decided in the affirmative let the government coin silver according to the Constitution.

Mr. Taylor of Illinois, spoke in favor of the bill and Mr. Lanham of Texas, opposed it.

Pending further debate the House adjourned.

The Senate.

WASHINGTON, June 6.—In the Senate the silver bill was taken up, and Mr. Hisecock addressed the Senate in opposition to the free coinage of silver. He believed that a majority of the people were opposed to opening the mints of the United States to the free coinage of the world's silver. In his judgment the National Convention of both political parties would, by decisive majorities, repudiate such a proposition. The last Democratic National convention had repudiated it, and the Republican National convention (if the proposition had been submitted to it) would have rejected it by an overwhelming majority.

Mr. Sherman, Ohio, addressed the Senate. He had, he said, consented to the increase of circulation proposed in the bill—\$4,000,000 a year. He saw no objection to that, although he thought it a little larger than necessary. He believed that Treasury notes based on silver bullion would be as safe a substitute for paper money as could be conceived. He did not fear to give to the Treasury notes every sanction and value that the United States could confer. He did not object to their being made a legal tender for all debts, public and private. That was preferable to the free coinage of silver, because with all the efforts made to get the silver dollar into circulation there was not one of them in circulation to every inhabitant.

The result of free coinage would be to demote gold and to cause it to be hoarded or exported. The free coinage of silver would be a reversal of the established policy of the government from the beginning. It would limit the coinage to a single metal—and that silver. As sure as fate silver would (with free coinage) be the only standard of money in the United States. The pound sterling would be worth \$1.25 instead of \$4.85, and the American dollar would be (as in colonial times) worth three English shillings or four francs.

In conclusion Mr. Sherman said that he would vote for any measure that would, in his judgment, secure and maintain a bi-metallic standard—one that would not demote gold nor cause it to be hoarded or exported, but that would establish both gold and silver as a common standard at a fixed ratio, not only in the United States, but in all the nations of the world. This was no time for a radical change of public policy which seemed to have no motive except to reduce the burden of obligations freely taken—a change that would likely impair the public credit and to produce disorder and confusion in all monetary transactions.

After further discussion the silver bill went over without action.

Senate bill giving to the Chicago, Kansas and Nebraska Railway Company power to sell and convey to another railway company its right of way and franchise in the Territory of Oklahoma and the Indian Territory was ordered placed on the calendar.

WILL EXTEND THE INQUIRY.

WASHINGTON, June 6.—The subcommittee of the House Committee on Judiciary, which for several weeks has been looking into the matter of fees charged by United States marshals and district attorneys, has decided to continue its inquiries into several States not contemplated in the original resolution. It is said that the inquiry has so far resulted in sensational developments regarding overcharges, and that the result of the investigation will be that many of the items now admitted in the enormous bills of expenses presented to the government will be eliminated. The methods employed by commissioners of circuit courts, many of whom, it is charged, are in collusion with the marshals, will also be looked into.

A Beautiful Magazine.

The Chicago Journal says: "Not content with besting the old with the new, the Chicago & Grand Trunk railway has now eclipsed its own record by the publication of a magazine entitled 'Gateways of Tourist Travel.' The work is elegantly gotten up and contains a host of the finest photographs of scenic spots along the line of the road. The whole forms a work of art."

This beautiful book is priced at cost—back paper, with several fine engravings, all of the photographs or half-tones, process, fifty large quarto pages and mailed free to any address on receipt of 20 cents in postage stamps by W. E. Davis, Chicago & Grand Trunk Railway, Chicago, Ill.

The sale of summer tourists' tickets commences June 1. The "Seaside and White Mountain Special," finest train in the world, will be run each Wednesday, commencing with June 25. Write for particulars.

IF YOU ARE TIRED TAKING the large, old-fashioned gripping pills, try Carter's Little Liver Pills and take some comfort. A man can't stand everything. One pill a dose. Try them.

Pearl's soap secures a beautiful complexion.

To Nervous Debilitated Men.

If you will send us your address, we will mail you our illustrated pamphlet explaining all about Dr. Dyes Celebrated Electro-Voltaic Belt and Appliances, and their charming effects upon the nervous debilitated system, and how they will quickly restore you to vigor, and manhood, Pamphlet free. If you are thus afflicted, we will send you a Belt and Appliances on a trial.

VOLTAIC BELT CO., Marshall, Mich.

WILL ABSORB ITS RIVALS.

The Standard Oil Trust Negotiating for Four Strong Companies.

NEW YORK, June 6.—Negotiations are now pending in a transaction which may prove to be one of the most important operations recorded in the history of petroleum. There is every prospect that at an early date the control of the four largest oil-producing companies which own territory in Pennsylvania and West Virginia will pass into the hands of the Standard Oil Trust interests. The companies are the Forest, Union, Anchor, and Washington, together with the smaller interests attached to them. The amount involved in the transaction will reach several millions of dollars and a large proportion of the current production and of the most promising lands in the petroleum region will become the property of the controlling refining company.

The terms of the purchase are withheld from the public. It is not known just how the Standard will arrange for the control of the properties. It is believed the machinery of the purchased companies will be maintained and the present officers and managers will develop the properties in line with the Standard's policy.

AN INHUMAN FATHER.

Conrad Waldsmith Said to Have Mistreated All His Daughters.

CHICAGO, June 6.—Conrad Waldsmith of 9 Grace street, was before Justice Kersten this morning on charges of criminal assault on two of his daughters, Marie and Katie, aged 12 and 11 years. The accused is the father of five girls and he is said to have caused the ruin of every one of them.

The evidence introduced by the little girls was the most revolting nature. He and the justice held Waldsmith to the Criminal court in bonds of \$10,000, remarking as he did so that he was sorry the inhuman parent could not be tried in one of the courts where his daughters were kept, and that he would see that punishment for such unnatural offenses. During the hearing the prisoner smiled at his children. On a former occasion he ruined a 14-year-old daughter and forced her to live with a saloonkeeper in liquidation of his saloon bill. He was complained of, arrested, and held to the Criminal court, but escaped punishment by intimidating his wife.

TO ELEVATE THE NEGRO.

Educational Problems Discussed by the Conference at Lake Mohonk.

LAKE MOHONK, N. Y., June 6.—The national negro conference took up the discussion of the question as to the ways and means that could be employed to elevate the negro race by means of education and Christianity, and a variety of views were expressed. Dr. President Hayes presided, and among those present was Gen. O. O. Howard, William Lloyd Garrison, Powell Clayton, President Gates of Rutgers; Fisk, of Fisk; White, of Cornell; Rankin, of Howard, and Taylor, of Vassar colleges, and John Jay. The conference, which will form itself into a national organization for the purpose indicated, will close tomorrow.

MURDERED BY HIS SON.

A South Dakota Politician Shot and Instantly Killed.

HUNTER, S. D., June 6.—Zack T. Hundley, Chairman of the State Democratic Central Committee, was murdered by his son Fred last night. They got into a dispute about putting down a carpet when Fred drew a revolver and shot his father, the ball entering the right side of the throat, glancing upward, and lodging in the base of the brain, producing almost instant death. The boy is in jail. Hundley was editor and half owner of the Huron Herald and well known throughout the State. The affair creates intense excitement.

What is Scrofula

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or many other manifestations usually ascribed to "humors." (It is a more formidable enemy than consumption or cancer alone, for scrofula combats every possible feature of both. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How can it be cured? By taking Hood's Sarsaparilla, which, by the cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. For all affections of the blood Hood's Sarsaparilla is unequalled, and some of the cures it has effected are really wonderful. If you suffer from scrofula in any of its various forms, be sure to give Hood's Sarsaparilla a trial.

Hood's Sarsaparilla Sold by all druggists, \$1.50 per bottle. Prepared by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

W. O. COFFEE M.D. Surgeon and Specialist.

Late President of Coffee Medical Institution, Louisville, Ky., but now of Chicago, will visit

Janesville, Wis., At WINDSOR HOUSE, UNTIL SEPT. 1st.

Dr. Coffee has been connected with Hospitals 17 years and uses only hospital methods and remedies. He is one of the most successful surgeons in this country; he comes prepared to treat or operate on all chronic Medical, Surgical diseases and deformities.

Diseases of the Eye, Ear, Nose, Throat and Lungs, Catarrh and Deafness in all its forms cured. We use Ozone in Lung troubles, Bronchitis, Tracheitis, etc., etc. at our Club feet. Remove Catarrhs from Eyes, Cancers and Tumors Superficially by Electrolysis. Nodes and Warts, Chronic Eczema Cured.

Nervous Debility, Spasmodic, Neuritis, Night sweats, physical decay arising from biliousness, indigestion, indigestion, Neuritis, Deafness, Tumors, Etc., any Chronic Ailment

TUMBLING INTO A DITCH.

Fatal Accident to a Northwestern Passenger Train Near Rockford This Afternoon.

SIX MEN KILLED OUTRIGHT AND ONE SERIOUSLY INJURED.

The Victims Names Not Ascertained—The Passengers All Escape Serious Injury—The Cause.

A serious accident occurred about one o'clock this afternoon on the Chicago & Northwestern railway, near Rockford, by which six men were killed outright and one more seriously injured. Very few details of the accident can be learned.

It appears, however, that the regular passenger train, from Freeport to Rockford, while rounding a sharp curve near Rockford, at which point a gang of section men were at work, was thrown into the ditch, killing the engineer of the passenger train and five of the section men. The fireman was seriously injured. The cause of the accident is not known, but on examination of the locomotive it was found that the "flanges" on the drive wheels were broken, and those in charge of the train attribute the accident to this. None of the passengers were hurt, but they received a severe shaking up. The names of the unfortunate victims could not be ascertained.

BRIEFLETS.

Quite a change in the temperature. "Cart the Outcast" at Lippin's Opera House to-night.

W. H. Greenman is at Landerdale Lake near Elkhorn enjoying a few days fishing.

A number of young folks from this city will attend the dancing party at La Prairie Grange hall to-night.

Workmen have the River street switch in place and are laying rails on the railroad bridge across the race.

Rock River Excursion No. 3, I. O. O. F. company Odd Fellows hall this evening—regular monthly meeting.

The "Thoughtful Circle" of the King's Daughters met this afternoon with Miss Jennie Dingley, Washington street, first ward.

The Janesville delegates to the annual meeting of the Grand Lodge of Odd Fellows at Eau Claire, returned home this morning.

People's Lodge No. 460, Independent Order of Good Templars, assemble in regular weekly meeting this evening—lodge room in the M. E. church block.

Mrs. Carrington, opposite the P. O. has a lovely line of Tea Gowns and Robes, and she makes prices just as lovely as the gowns. Ladies call and see her.

Remember the social to be held at the church parlors of the Baptist church on Friday evening of this week, when ice cream and cake will be served, and all who come made welcome.

Oliver Branch Lodge No. 36, Ancient Order of United Workmen, assemble in regular semi-monthly meeting this evening—lodge room in Liberty Hall, East Milwaukee street.

At the meeting of the State Medical Society yesterday in Milwaukee, Dr. Henry Palmer, of this city, read an interesting paper on "Seventeen Cases of Abdominal Sections."

The ladies of the Presbyterian church will hold a social and supper at the residence of M. H. Soverhill, corner of Washington and Ravine streets, Friday evening. Supper will be served at 5:30. All are cordially invited.

To-morrow morning at nine o'clock, Judge Bennett, of the circuit court, will listen to the memorial service and receive the resolutions of the Rock County Bar passed at a recent meeting, on the death of the late W. H. Ebbetts. The session of the court will be held in the circuit court room.

A large crowd gathered at the Corn Exchange last evening to listen to the music of the Bower City Band. It was one of the regular weekly concerts and despite the rain they drew a very good sized audience. A variety of music was rendered, the numbers were well received. The band is making great improvement.

Says the Madison Journal quite truthfully: "Outward swinging gates are liable to provoke profanity if a most vicious character from pedestrians on dark nights. Christian people should endeavor to promote morality by hanging them so they will swing inward. If there is one time above another when murder wells up in the human heart, it is when a man hauls up, kept thump against one of these obstacles, tramping only standing out across the sidewalk, awaiting the coming of the unsuspecting victim."

Mayor St. John has called a special meeting of the common council for this evening, for the purpose of considering the grade of North River street. It is reported that the city engineer succeeded in finding the grade about two feet below the present surface of the street. It is said that the aldermen this evening will discuss the economic point—which is the cheapest way to remedy the difficulty, remove the extra fill or establish a new grade to conform to the present surface of the street.

President Atwood, of Oak Hill Cemetery Association, requests that the Gazette again call public attention to the rules of the cemetery association, forbidding dogs entering the grounds. Also to request owners to leave their dogs at home when visiting the grounds. The cemetery is a regular home for gophers, and dogs frequently chase them into their burrows, and then try to dig the little animals out. In so doing it is not an unprofitable thing for a tombstone to be thrown out of position or trampled over and damaged. People having an interest in the grounds should remember this and leave their dogs at home.

The Gazette calls special attention to the communication of Ald. Thoroughgood, published in the paper, relating to the Bower City Band. Ald. Thoroughgood tells the whole story, and in a private conversation with a Gazette reporter, he volunteered his services to a new ward for support as indicated. The music is very of the city should take right hold of this matter, and give the Bower City Band boys a substantial "lift" out of their present financial straits, place the organization square on its feet, and encourage them in their efforts to excel. A little united effort is all that is required to accomplish the desired result. Try it.

THE FRANKIE JONES COMPANY.

They Play "Hearts of Oak," at Lippin's Opera House Last Night.

Last evening the Frankie Jones Company presented "Hearts of Oak," the play made famous by James A. Hearn. The play is composed of six short acts and is a good production giving many places for effective work.

Master Jones took a female part, that of a servant.

The two best parts were Walter Lawrence as "Terry Donistoun," and Miss Helen Vaughn as "Crystal." Both were finely taken.

John W. O'Hara, as "Owen Galloway," was good, as was also Mollyneaux as "Annie Beatey."

The play gave good satisfaction and the acting was frequently applauded.

To-night they will play, "Carl, the Outcast," a piece written especially for Master Jones. Saturday afternoon they will give a matinee performance for the women and children. To-morrow night closes the engagement.

CALEDONIAN SOCIETY.

The Quarterly Meeting Held Yesterday at Their Rooms.

A quarterly meeting of the Rock County Caledonian Society was held at their rooms in the Bennett block at two o'clock yesterday afternoon.

Messrs. James Miley, Alex. Galtbreith, R. W. King, John Harvey, C. O. McLean, James Scott and John Galtbreith were appointed a committee to arrange for the Scottish games next August. The location and date for the games have not yet been decided.

One hundred dollars was appropriated to procure books and pictures for the rooms of the society. Five new members were elected.

Owing to the unfavorable weather the social and dance which was to have been given after the meeting, was postponed until next Tuesday evening, June 10th, when a programme will be presented and all friends of the society are invited.

CIRCUIT COURT.

Commissioners Appointed to Appraise the Property on North Main Street.

This morning in the circuit court the petition of the Chicago, Milwaukee & St. Paul railway company for this appointment of commissioners to appraise certain lands in the city of Janesville, came up for hearing, and the court appointed Messrs. Alexander Graham, E. G. Field and J. C. Metcalf as such commissioners.

The commissioners were in session this afternoon at the office of the clerk of the circuit court. The lands in question are located along North Main street.

The divorce action of Dimick against Dimick, then came on for hearing, and judgment of divorce was granted.

RECEPTION AND DANCE.

The Fortnightly Club Will Entertain the Companion Club.

This evening the Fortnightly Club will give a reception to the members of the Companion Club, the juvenile branch of the Fortnightly at the parlors of the All Souls church. Ice cream and cake will be served, and afterwards there will be dancing. The reception will begin at half past seven o'clock. All members of the Fortnightly Club as well as all friends who have attended the meetings and socials of the club, are invited to be present.

Progress.

It is very important in this age of vast material progress that a remedy be placed upon the table and to the eye easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the most perfect laxative and most gentle diuretic known.

MATRIMONIAL.

Anderson-Melanson.

Last Tuesday a quiet wedding was celebrated at the home of Justice M. S. Frohman, at 203 Prospect avenue. The contracting parties were Mr. George E. Anderson, of this city, and Miss Fanny Melanson, of Chicago. The groom is well known in this city, and was formerly a conductor on the C. & N. W. Ry.

The bride is a lady who has a host of friends in her native city. The friends of the newly married couple will wish them joy and prosperity in their journey through life.

The Standard.

"I regard Moody's Sarsaparilla as having passed above the grade of what are commonly called patent or proprietary medicines," said a well known physician recently. "It is fully entitled to be considered a standard medicine, and has won its reputation by its undoubted merit and by the many remarkable cures it has effected. For an alternative and tonic it has never been equalled."

PERSONAL.

Mr. S. Pierce, of Koshkonong, is in the city to-day.

Mr. J. H. Gateley is in Lima on business to-day.

Judge Patterson is reported somewhat better to-day.

Mrs. J. B. Doe, Jr., and daughter, are visiting friends in Chicago.

Dr. James Mills is in Milwaukee to-day attending the State Medical Convention.

Mr. John Wheeler, of St. Paul, is in the city, being called here by the death of his mother, Mrs. R. M. Wheeler.

Messrs. James Hickney, P. Kavanagh, M. Murphy, Geo. Picking, M. Burroughs, A. Curran and Charles Vincy, Jr. have returned from Appleton, where they have been as delegates to the T. A. & E. Society convention.

THE NEED OF MORE HOSE.

The Necessity Plainly Stated by the Chief Engineer in His Quarterly Report.

THE RESPONSIBILITY MUST REST WITH THE COUNCIL.

Additions and Changes in Alarm Boxes—The Kent Workers' Other Important Recommendations.

Chief Engineer Blank, of the fire department, submitted his quarterly report to the common council at the last meeting of that body. Chief Blank makes some very important recommendations, which should be carefully considered. That in relation to the purchase of hose, it should be the duty of the council to meet with one or two members of the fire department to determine if it is necessary to purchase hose at this time, as he now had three thousand five hundred feet of good hose in the department. The gentlemen did not fully quote the chief. While he urges the necessity of purchasing an additional thousand feet of hose at this time in his report, he did state to the aldermen, and members of the committee on fire and water, that he had sufficient hose now in use for ordinary fires. But should there be another fire like that in the Blair & Gowdwy wood and coal yards, the lack of hose would be seriously felt. Had the fire crossed Marion street at that time, it would have been difficult for the department to head off the fire from the west. Take the Kent works, on North Main street. It would be impossible to bring six effective streams to bear upon it with the present supply of hose. The fire department may never be called to a fire in that place, or in a similar location. It is not in the language of the chief, "we have sufficient hose for all ordinary fires." It is for the extraordinary and unlooked for fires that the chief desires an additional supply of hose. He has plainly stated the facts in his report. Let the common council take the risk and responsibility. The following is the full text of the report:—

To the Honorable the Mayor and Common Council of the City of Janesville:

GENTLEMEN:—I herewith submit my report of the operations and condition of the fire department for the three months ending with date:

Since March 10th—the date of my last quarterly and annual report—the department has answered six fire alarms, one of which was given without cause. On May 31 the department was called to the coal and wood sheds of Blair & Gowdwy, on West Milwaukee street, their boiler house being on fire. Notwithstanding the fact that the department was right on hand and quickly at work, the fire spread rapidly, destroying a number of coal and wood sheds belonging to Blair & Gowdwy, the tobacco warehouse belonging to T. Wilson on the west, and doing a great deal of damage to the coal and wood sheds of Smith & Gateley on the east. For a time this fire appeared a serious one, owing to the large quantities of dry materials which were in the sheds. Every available foot of hose belonging to the department was put in service, and seven streams of water, were thrown from six different fire hydrants. Some of this hose, being old, was easily burst under a pressure of 110 pounds at the pumps. The fire was finally subdued with a loss not exceeding three thousand dollars, partly covered by insurance. Following the department has a similar configuration in our city. I urged upon the members of the fire and water committee the necessity of purchasing an additional one thousand feet of hose. Had there been a second alarm on the east, as it threatened at one time, the lack of hose would have been seriously felt. I now earnestly call your attention to this necessity. We now have three thousand five hundred feet of what is deemed serviceable hose in the department.

I would respectfully renew my former recommendation for the purchase of one or two heavy wagons for use in carrying the hose to the fire, believing it economy to do so. One of the wagons could be so built that it could carry a few light ladders and a quantity of hose, and also used in rescuing persons from burning buildings. It is a simple matter to build one, and it would save a long run with the large hook and ladder truck. These wagons need not be expensive.

I also renew my recommendation for the change of location of alarm box No. 13 to one block west of its present location; the placing of a new box at the junction of Academy, Madison and Ravine streets, and one at the corner of Henry and Glen streets.

Hose carriages, hook and ladder truck and all the equipments, including the horses, are in good condition at this present time.

Under a resolution from the common council I sold the old horse formerly in service on the hook and ladder truck, the price received being seventy dollars, which sum has been turned over to the city treasury.

I have also turned over to the city treasurer \$7.50, the same being the proceeds from the sale of an old steam boiler sold to Harry Anderson.

The city treasurer has also received the sum of \$81 from the village of Evansville for the use of the steam fire engine.

The treasurer informed me that he has received the sum of \$20.00 from the city of Durand for the use of the steam fire engine.

In connection with the fact that call your attention to the fact that at the time the engine was sold to Durand, by direction of the fire and water committee, I loaned the mayor of Durand two hundred feet new White Anchor hose. The hose was to be returned as soon as the authorities could procure hose without charge. Notwithstanding that the Durand authorities have been repeatedly written to I have been unable to get a response, and therefore the hose must be some understanding of the matter. I would suggest that the city clerk be directed to write to the Durand city authorities, and if possible, ascertain why the hose have not been returned.

There has been a change in the membership of the department since my last report.

During the last three months I have purchased feed for department horses as follows:

OATS.

March 4th—100 bushels and 20 lbs. at 20c..... 20.00

April 17th—150 bushels and 20 lbs. at 13c..... 19.50

May 17th—60 bushels and 20 lbs. at 20c..... 12.00

Total, 310 bushels and 60 lbs. at 20c..... 51.50

HAY.

March 3d—215 pounds..... 7.00

March 24th—150 pounds..... 5.25

April 17th—350 pounds..... 12.75

March 27th—47 bales, at 25c..... 11.75

April 17th—280 pounds..... 8.40

May 21st—380 pounds..... 11.75

Total, 1,570 pounds at a cost of..... 63.30

BRAN.

March 17th—45 pounds..... 2.00

April 18th—60 pounds..... 2.50

Total 105 pounds..... 4.50

Making a total cost for feed of..... 117.25

This makes an average cost per horse for the last three months about 15 cents.

THE NEED OF MORE HOSE.

The Necessity Plainly Stated by the Chief Engineer in His Quarterly Report.

THE RESPONSIBILITY MUST REST WITH THE COUNCIL.

Additions and Changes in Alarm Boxes—The Kent Workers' Other Important Recommendations.

Chief Engineer Blank, of the fire department, submitted his quarterly report to the common council at the last meeting of that body. Chief Blank makes some very important recommendations, which should be carefully considered. That in relation to the purchase of hose, it should be the duty of the council to meet with one or two members of the fire department to determine if it is necessary to purchase hose at this time, as he now had three thousand five hundred feet of good hose in the department. The gentlemen did not fully quote the chief. While he urges the necessity of purchasing an additional thousand feet of hose at this time in his report, he did state to the aldermen, and members of the committee on fire and water, that he had sufficient hose now in use for ordinary fires. But should there be another fire like that in the Blair & Gowdwy wood and coal yards, the lack of hose would be seriously felt. Had the fire crossed Marion street at that time, it would have been difficult for the department to head off the fire from the west. Take the Kent works, on North Main street. It would be impossible to bring six effective streams to bear upon it with the present supply of hose. The fire department may never be called to a fire in that place, or in a similar location. It is not in the language of the chief, "we have sufficient hose for all ordinary fires." It is for the extraordinary and unlooked for fires that the chief desires an additional supply of hose. He has plainly stated the facts in his report. Let the common council take the risk and responsibility. The following is the full text of the report:—

To the Honorable the Mayor and Common Council of the City of Janesville:

GENTLEMEN:—I herewith submit my report of the operations and condition of the fire department for the three months ending with date:

Since March 10th—the date of my last quarterly and annual report—the department has answered six fire alarms, one of which was given without cause. On May 31 the department was called to the coal and wood sheds of Blair & Gowdwy, on West Milwaukee street, their boiler house being on fire. Notwithstanding the fact that the department was right on hand and
